

The American Institute of Architects Continuing Education System

AIA/CES Registered Provider Program Summary

Provider: National Glass Association	Length: 1 hour
Program #: NGA0624_L	Credits: 1.0 LU
Program: Key Strategies for Bird-Friendly Glazing	HSW/Sustainability: No

Description: Research on bird-glazing collision prevention has guided the development of bird-friendly building design. This presentation will discuss how to transform clear and reflective architectural glass into barriers that birds will see and avoid.

Learning Objectives:

- Understand the importance of birds and sources of avian mortality
- Explain the factors increasing the risk of bird collisions
- List key learnings from bird-safe research and studies that can make glass more visible to birds
- Describe the mitigating effects of glass in bird-friendly glazing products

Target Audience: Architects, specifiers, owners and other design professionals in the commercial market. The ideal audience size can be one on one or over 50. The program meets every experience level with time designed into the program for questions and answers.

A/V Needs: Electrical power, screen and computer projector for the PowerPoint presentation. The CES facilitator supplies the laptop and laser pointer.

How Taught: The CES facilitator utilizes a PowerPoint presentation to offer a live presentation, allowing time for Q&A with the participants.

Facilitator Qualifications: All NGA CES facilitators have signed the AIA speaker agreement. In addition, the facilitators are individuals working within the commercial architectural glass industry at member companies of the Association.

Costs: There is no cost to bring this program into your firm or chapter meeting.
